

CORRECTED FISCAL MEMORANDUM

SB 3280 – HB 3637

May 13, 2008

SUMMARY OF AMENDMENT (018492): Deletes the language of the original bill and amends the open records law in several ways. Requires all public government records be open for personal inspection by any citizen of Tennessee during regular business hours. Gives the custodian of the public record seven business days to make information available, deny the request in writing, or provide a time frame necessary for producing the record. Authorizes the records custodian to require the requester to pay actual cost for producing the record after five hours, including the making of copies and the hourly wage of the employee who produces the record. After the Office of Open Records Counsel (ORC) develops a schedule of reasonable charges, this authorization will be voided. Establishes additional procedures for open records, including authorization for requesters to make requests in writing and present photo identification. Gives circuit courts, in addition to chancery courts, jurisdiction over open records disputes. Requires the Municipal Technical Advisory Service (MTAS), the County Technical Assistance Service (CTAS), the Tennessee School Board Association, the Utility Management Review Board, and the State Emergency Communications Board to provide training to local government entities regarding the open meetings law. Establishes in general law the Office of Open Records Counsel (ORC) and creates an advisory committee. Requires the ORC and advisory committee to establish a schedule of reasonable charges related to producing records, a policy for frequent and multiple requests of records, and a safe harbor policy.

FISCAL IMPACT OF ORIGINAL BILL:

Increase State Expenditures - \$22,500/One-Time
\$140,400/Recurring

Increase Local Expenditures – Exceeds \$100,000/Recurring

FISCAL IMPACT OF BILL WITH PROPOSED AMENDMENT:

On May 13, 2008, we issued a fiscal memorandum on this amendment indicating *an increase in state expenditures of \$2,500/One-Time and \$167,400/Recurring and other fiscal impact stating local governments will experience an increase in expenditures due to additional requirements placed on the custodian of public records. This amount will differ from local government to local government depending on population and number of requests. The*

increase in expenditures may be offset by fees levied for copies and hourly wages. However, due to the number of variables a precise estimate cannot be reasonably determined. Based on additional information from the Comptroller, the fiscal impact of the bill with the proposed amendment is as follows:

(CORRECTED)

Increase State Revenue - \$7,500/Recurring

Increase State Expenditures – \$2,500/One-Time

\$14,000/Recurring

Other Fiscal Impact – Local governments will experience an increase in expenditures due to additional requirements placed on the custodian of public records. This amount will differ from local government to local government depending on population and number of requests. The increase in expenditures may be offset by fees levied for copies and hourly wages. However, due to the number of variables a precise estimate cannot be reasonably determined.

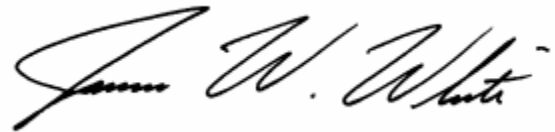

Assumptions applied to amendment:

- Two professional positions in the ORC are currently funded. One position is funded through a recurring amount of \$100,000 in the Governor's Budget and the second position has been filled by an existing employee of the Comptroller's office, negating the need to hire an additional employee.
- MTAS and CTAS have already established training programs on open government and will not require additional resources. The Tennessee School Board Association and the State Emergency Communications Board can incorporate open government training into existing training with no significant additional cost. The UMRB does not currently have such training in place. The UMRB estimates a recurring increase in expenditures of \$7,500 for training program travel and materials per year. These programs will be held annually in five locations statewide. A fee will be levied sufficient to cover these costs and is expected to increase state revenue \$7,500.
- The UMRB estimates a one-time increase in expenditures of \$2,500 for development of the program.
- State expenditures will increase \$6,500 for travel costs for the Advisory Committee ([8 non-legislative members for 4 meetings per year with \$131.56 {\$0.46 per mile x 286 miles} travel reimbursement] + [2 legislative members for 4 meetings per year with \$120 travel reimbursement and \$161 per diem]).

- Local government expenditures will increase as a result of additional requirements placed on the custodian of public records, especially the notification requirement. This increase may be offset by fees charged for producing records.
